

GAMING HALL MAP

The Gaming Hall takes up more square footage than any other department at PAX, so it seemed worthy of its own map. Before you start scoping it out, though, there's a couple key things to note. The Gaming Hall takes up the bulk of Halls C, D, and E. Hall E is closest to the Broad Street Entrance, with the Expo Hall taking up Halls A and B on the other end. Also, if you ever encounter any locations that start with "GH", ie, GH-53, you'll find it here. Specifically, in that case, you'd be looking for the Crokinole Zone (good choice, btw).

HALL E
